

Miracle That You Love Me

Intro - F/A – Bb – Gm7 – A7sus (x 2)

F/A

You made this mountain and then you said to me

That with my faith in you alone

I'd see it melt into the sea

And in that ocean wide I'll with you abide

And where my reason fears

Oh by faith I'll swim.

You put the stars in space right in the blackest place

You caused the light to shine – O but greater still

You put your spirit in this heart of mine

And I'm your temple now although I don't know how

I just thank you for this miracle

This miracle that you love me.
